

## BANDUM 25/50 MPC

The Sollas Bandum MPC is a hand operated, micro-processor controlled banding machine, that applies a Polypropylene or Kraft paper band around products in a wide variety of shapes and sizes.

The most important features of the Sollas Bandum are:

- Reliable industrial quality construction
- No product related parts so different products can be handled in mixed runs
- Available as compact table top model or on castor wheels
- Adjustable tension of the band
- Electronically controlled sealing device
- Sealing element does not touch the product
- Positive film transport
- Easy operation, 'plug-and-play'
- CE approved
- Detailed user's manual/documentation
- Ease of maintenance

Type	Bandum 25	Bandum 50
Size range L	40 - 330 mm	40 - 330 mm
W	50 - ∞ mm	75 - ∞ mm
H	5 - 160 mm	5 - 160 mm
Output max.*	20 / minute	20 / minute
Film width	25 mm	50 mm
Packing material	PP and coated paper	
Film reel diameter max.	240 mm (adapted 400 mm)	
Options	Support for soft products, back-up plate for easy product positioning	
* depending on skills of machine operator and product properties
